Accountant's Compilation Report

To: Management
Villa San Marco Condominium Association
100 Villa Club Dr
St. Augustine, FL 32086

Management is responsible for the accompanying financial statements of Villa San Marco Condominium Association Inc, which comprise the balance sheet as of January 31, 2021 and the related statements of revenues, expenses, and changes in member's equity for the year then ended in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

A statement of Cash flows for the period ended January 31, 2021 has not been presented. Accounting principles generally accepted in the United States of America require that such a statement be presented when financial statements purport to present financial, position and results of operations.

Management has elected to omit substantially all the disclosures and the statement of cash flows required by accounting principles generally accepted in the United States of America. If the omitted disclosures and the statement of cash flows were included in the financial statements, they might influence the user's conclusions about the Company's financial position, results of operations, and cash flows. Accordingly, the financial statements are not designed for those who are not informed about such matters.

Management has omitted supplementary information about future major repairs and replacements of common property that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Financial Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.
